

CFPCA Activity Award Scholarship

CHECKLIST

This checklist review is designed to assist in insuring that student activity award scholarships are appropriately assigned to support student learning.

1. Is the scholarship awarded commensurate with hours of service?

Yes ___ No ___

The amount of an activity award scholarships should never be associated with the specific number of hours dedicated to a specific activity. Activity award scholarships are funds dedicated to support student learning through activities that are connected to their program of study.

2. Is the activity associated with a specific class or independent study where the student will receive a grade?

Yes ___ No ___

When possible, it is recommended that the activity award scholarship be tied to credit hour coursework.

3. Is the student a major or a minor in a program that is associated with the activity?

Yes ___ No ___

Activity award scholarships are given to support student learning and mastery of specific skills, it is most appropriate if the student's major is associated with the activity.

4. Are the skills and education received by student primarily for the benefit of the student's education?

Yes ___ No ___

The skills and education supported by the activity award scholarships should not be incidental but central to academic experience, degree progress and successful degree completion.

5. Does the scholarship represent payment for services performed?

Yes ___ No ___

Scholarships are never paid as remuneration for services performed or for students completing work.

6. Does the scholarship enable students to pursue studies, research or creative work primarily for the benefit of WSU?

Yes ___ No ___

The benefit of the supported activity must be primarily for the student receiving the award and not for the program, department, or university.
